Glossary

All symbols – briefly explained

Own fruit gum production: We offer you a wide range of certified fruit gum from own production.

Fruit gum: Produced with 10 % or 25 % fruit content from fruit juice concentrate, natural aroma and colouring plant extracts.

Note: Products with 30 % less sugar or sugar-free products.

Express production: Please watch out for our express symbol! It assures fastest production.

Veggie: Contains no ingredients derived from animals. Possible exceptions: milk, chicken egg, honey or beeswax.

Vegan: Contains no ingredients derived from animals and not produced by using any animal components.

Please take note of our FSC® certified promotional bags made out of 99.9 % paper.

Watch out for **Top-Seller, Novelty and Sweet Smarter recommendations!**

IFS certified: Certificate of the International Featured Standards for the casting of fruit gum and chocolate and packing of confectionery.

Gubor Chocolate with Fairtrade Cocoa: Fairtrade cocoa may be mixed with non-certified cocoa, on a mass balance basis. Visit info.fairtrade.net/sourcing

FSC® (Forest Stewardship Council®): With our FSC® certified promotional cartons and paper you can contribute the promotion of an environmentally friendly, socially beneficial and economically viable management of our forests.

UTZ certified: Seal of quality for sustainable cultivation of cocoa.

Organic certification: Seal for certified organic products of the European Union EU-/Non-EU Agriculture.

Compostable "seed" symbol
"♻️" is a registered trademark of European Bioplastics e.V. in the EU."

METAL recycles forever: Tin plates are recyclable repeatedly without any deterioration of quality and has the highest recycling rate with over 90 % of all packaging materials for years.

SWEET SMARTER

... **our motto –**

starting from our company philosophy, over to our manufacturing processes and our numerous products for the diversity of different target groups.

MADE IN GERMANY – your competitive advantage

Certified green electricity from sun, wind and water energy, own photovoltaics cells, thermal residual heat and rainwater use, are indicators for our responsible use of resources. Our energy management certified to DIN EN-ISO 50001 : 2018 and our disposal system form the basis for our sustainable produced **promotional sweets – MADE IN GERMANY**

High food safety

The IFS-Food Standard is used for the auditing of food producers in consideration of food safety, quality of processes, as well as product quality.

It was developed in close cooperation with certification bodies, the trade, food and system catering industries.

IFS certified: Certificate of International Featured Standards for moulding fruit gum and chocolate, as well as the packing of sweets and sugar confectionery.

Compostable Promotional Packaging

Make a contribution to environmental protection. Packaging material marked with the compostability logo „Seedling Logo“ is tested according to the European standard EN13432 and confirms the compostability of the packaging incl. printing inks/ colours under optimal composting conditions.

Please take note of our compostable promotional packaging.

„Seedling Logo“ is a registered trademark of European Bioplastics e.V. in the EU.*

FSC® cardboard box & paper bags

Sustainable and 100 % recyclable.

FSC® stands for the promotion of an environmentally friendly, socially beneficial and economically viable management of our forests. Go for FSC® cardboards & paper bags and efficiently use of our forest resources.

Please take note of our FSC® certified promo cartons & paper bags.

METAL recycles forever

Tin plates are recyclable repeatedly without any deterioration of quality and has the highest recycling rate with over 90 % of all packaging materials for years. Every recycled ton of metal packaging saves up to two tons of raw material and consequently reduces the energy consumption by 95 %.*

Please note our to 99 % recyclable XS Pocket Tin.

* source: VMV

Own  certified production

UTZ® Certified Cocoa

Controlled quality by independent researchers increases the standard of living of the farmers, their employees and their families. At the same time, it supports the sustainable cultivation of cocoa.

Please take note of our UTZ® certified products.

Gubor Chocolate with Fairtrade Cocoa

The quantity of cocoa required for our Gubor products are sourced, traded and audited as Fairtrade, ensuring cocoa producers receive Fairtrade terms. It may be mixed during processing with non-certified cocoa, so that the total matches the amount sourced as Fairtrade cocoa.

For more information visit info.fairtrade.net/sourcing

Please take note of our Gubor chocolate products with Fairtrade Cocoa.

When it says ORGANIC – It is really ORGANIC inside!

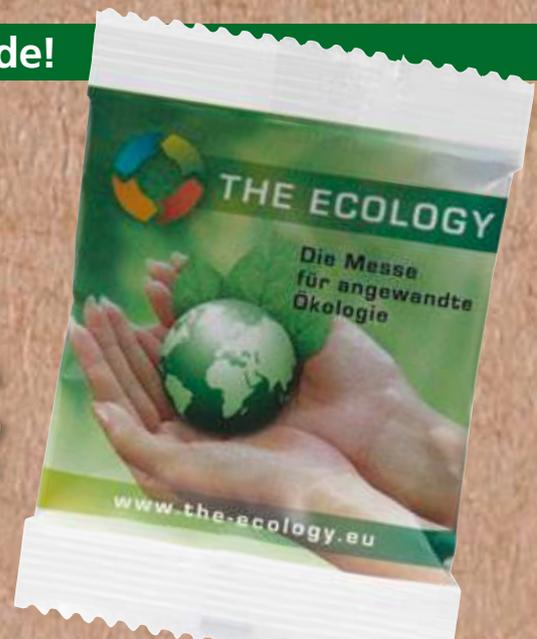

Organic promotional products are booming and with the Eco seal they stand for quality and transparency – from production, over to processing, to sales.

For many industries a decisive argument!

Please take note of our organic certified products.

Did you know?

" is a registered trademark of European Bioplastics e.V. in the EU."

With compostable packaging, out of renewable raw materials you can take the first step for environmental protection. Packaging material which features the protected compostable "seed" symbol is tested and certified in accordance with the European standard EN 13432. The requirements given by this standard are proven by accredited laboratories and confirm the compostability of the packaging including the print colours under ideal compost conditions. With the use of compostable foils we can guarantee a minimum shelf life of 6 months, with proper storage. Help us to protect the environment!

¹ after artwork approval

Standard bag formats shiny or optionally matt coated: You can choose!

Choose your filling quantity, the appropriate bag format and lamination for standard foils.

Alternative bag and stand-up pouch formats:

Additional formats or filling weights are available on request and will be charged with an additional lump sum.

Did you know?

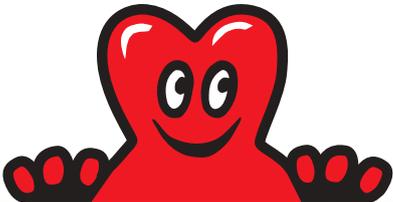

Our bags and stand-up pouches are available in many different sizes, printed and filled according to your requests. Filling quantities refer to the standard fruit gum shape 1 Premium-Bear see page 16. The recommended filling quantities per size refer to our standard fruit gum shape. Please contact us. We are looking forward to explain your options and to send you a detailed quotation!

Use the natural power of collagen!

By eating beauty fruit gum, the containing VERISOL® systematically effects the collagen metabolism in the dermis rather than just reaching the outer layers of the skin like creams and other topical products do. Just one bag of beauty fruit gum covers the daily requirement of VERISOL®. For best results a regular income is recommended. A varied and balanced diet and a healthy lifestyle are important for your well-being.

Did you know?

Our Tea-Bears® are the world first fruit gum with special characteristics to dissolve in hot water. After casting the Tea-Bears® in a cup of hot water, they dissolve in just a few seconds and a sweet and aromatic hot drink results. Originality, taste and your advertising message was underlined by this awesome and qualitative novelty.

Did you know?

From now on you will receive our candies in a compostable promo wrapper at no extra costs!

Traditional candy craftsmanship and innovative ideas are the secret recipe of these first class candies from the Black Forest area. All ingredients and processing technologies correspond to the high requirements of IFS standards 6.1. For the dyeing of our tasty candies, we only use natural fruit or plant extracts and to ensure a fruity and intense flavor experience, we are adding delicious fruit juice concentrate.

With PÄX fruits and apple cubes you can snack fit and without remorse the whole day long

Did you know?

Everything started with one question: Why is there no crispy snack, which is light, tastes good and at the same time contains natural ingredients – Something like fruits or vegetable, but as a snack? The young company PÄX Food in Magdeburg, Germany has exactly accepted this challenge: with its patterned PÄX drying process, they are gently refining fruits and vegetables into innovative crispy snacks. Fruits and vegetables as a pure dry substance: Flavours and ingredients of the fruits highly concentrated, crispy as crisps, without any additives, but with the natural and intense flavour of the fresh fruits. PÄX is what today's consumers are looking for: the alternative to sugared, salted or also greasy snacks. The new product category "PÄXed fruits" is applicable as an innovative and smart promotional product. From a give-away at event locations, to a little snack in the office or meeting, to a little bedtime treat in Hotels.

Dextrose, Peppermint, Sherbet Powder, Sugar

Shiny or matt?

The two different foil lamination options for bags, flowpacks and lolly packaging add another plus to your promotion.

We are happy to assist you!

Dextrose, for your brain & your muscles

The brain needs more than half of the dextrose present in the body. In stressful situations, when brain activity ramps up, the brain can commandeer even more of the available glucose, up to 90 percent. But the brain itself cannot store even the smallest reserves of glucose. The only source from which it can draw glucose is the blood and the reserves stored by the liver. The muscles are the brain's biggest competitors among the body's other glucose users. During physical exertion, their glucose needs also rise sharply. Unlike the brain, they can store some glucose in a special form, but only for their own use. Of all the foods we typically eat when we face peak energy needs, dextrose is among the fastest-acting sources of energy. So DEXTRO ENERGY is the perfect power snack during sports, study or job activities.

Sales tip: Endless possibilities for personalisation

Personalise your peppermint card according to your company requirements: For industrial or trading companies we recommend the realisation of a business card, for credit institutions/banks it would be possible to design it as a credit card and all other companies could just do a fresh advertising by adding the logo on the card.

Printing processes:

We work with 5 printing processes:

- Flex print and digital print (for flexible packaging materials)
- Pad print and digital print (cans)
- Screen print (Advent Calendar "standard")
- Offset print (Advent Calendar "personalised")

It shall be our decision exclusively whether and which product will be manufactured using the printing process.

For technical reasons, register differences cannot be avoided in the printing processes listed. With Flex print, register differences of up to 5/10 mm in the motif can arise. Please request the data sheets that correspond to our various products.

Over delivery and under delivery:

For technical reasons, over deliveries and under deliveries of up to 10% of the total amount cannot always be avoided.

Colours:

We work with translucent colours among others. Translucent colours do not always cover a surface completely and often do not result in the desired colour unless a white base is applied beforehand.

Please list your colour requests in detail. We work with HKS or Pantone colours. We do not work with RAL colours. Colours very similar to RAL colours can be achieved (using Pantone or HKS). Colour templates in the form of letterhead, business cards, brochures, etc. only serve as a rough guide. The printing result can vary due to differences in the material. We will make efforts to achieve the desired colour tone. However, we cannot take responsibility for the result without a precise HKS or Pantone colour specification. Variance in nuances with the HKS or Pantone colours is no reason for return.

As mentioned above, we work with translucent colours, in certain cases on clear materials.

Each motif and each product can and must be treated individually. It is not possible to account for every eventuality beforehand in writing. You will find basic information here and in our data sheets. However, we cannot assume unconditional responsibility for this information. An individual and specific telephone consultation, tailored to your product and motif is available through our specialists. For this purpose, we ask that you send us your desired print motif. Without a sample of the print motif, we cannot provide a consultation.

Please do not send us any films or manuscripts. We work exclusively with own films or manuscripts.

When sending digital information, we require a copy of the motif in the form of a colour sample. The colours should be colour-consistent if possible. It is not possible to print without a motif sample on paper and colour-consistent proofs.

Perishable foodstuffs:

We would like to point out that foodstuffs cannot be returned or exchanged. Inspect the goods immediately upon receiving them and notify us of complaints within 24 hours.

Returns sent later than this cannot be accepted. Once foodstuffs leave our premises, we no longer have control over them. Therefore, we can neither accept responsibility for quality nor for suitable treatment of the food in this regard.

Damages:

Delivery damages must be noted on the consignment form and acknowledged by the forwarding agent. Damages to pallets, which are not noted on the consignment form, cannot be claimed as delivery damages. Upon delivery, be sure to check for a clean and orderly application of shipping straps and foil packaging. Irregularities must be noted and photographed immediately.

Delivery dates:

Apply to date of shipment within and/or on a delivery week and/or day, respectively and never to the actual date of delivery.

Delivery dates can neither be confirmed nor are they to be considered binding. We work with forwarding agents of our choosing. However, upon transfer of goods we cannot be made accountable. You may designate your own forwarding agent or courier, if desired.

Fixed delivery dates will not be confirmed and no responsibility will be assumed for fixed delivery dates that are not met by the forwarding company.

Delivery dates shall apply after an approval for printing is received, not upon receipt of the first proof. Without an approval, printing will not begin.

Without an approval, no delivery date can be confirmed. A correction in a proof print that we create for you is not considered an approval for printing. Your correction will be re-worked and you will receive a new proof for inspection and approval.

Corrections:

Please read the text in our proof prints carefully. If you have problems understanding any part of a proof, call us. We will be happy to assist you. We do not assume responsibility for approved prints or for errors of any sort that you may have overlooked. An approval from you is considered an unlimited and irrevocable part of a work order.

All preparatory work performed by us up to the approval will be invoiced, even in the event that the work order is cancelled.

For unaltered reprints, you will also receive proof prints with a request for inspection and approval. Colour deviations within an unaltered reprint are technical in nature and cannot be avoided. Colour deviations in nuances shall not be accepted as grounds for returns.

It is also possible to receive design recommendations from us. You can receive pricing information upon request once you have stated the amount and type of work to be done.

Original press proofs are available, yet they will be billed individually depending on the motif. Please keep in mind that a proof run delays the delivery by 5 working days. An additional proof run delays the delivery by another 5 working days, and so on.

Returns

must be documented. At least 10% of a total amount must be returned as an originally packaged unit as evidence. A return involving printing must also affect at least 10% of the total amount and be documented.

Returns regarding taste and appearance of foodstuffs can only be accepted when the products were stored and treated in manner suitable for foodstuffs. You can request information regarding expiration dates and other important details at any time. For example, never store chocolate products above room temperature. Fruit gum products are sensitive to heat and moisture.

Some of our products are packaged according to weight and some according to amount. Deviations in the amount per covering box vary according to machine and product. The total end amount is checked and documented. If deviations occur per packaging unit, please check the total end amount.

Our team is available to answer all of your questions. Our staff can competently answer any questions you might have regarding our products, prints, digital storage media, and pricing.

However, we do ask that you remain patient should short waiting periods arise. It is important to us to take the time to serve all of our customers and to fulfil requests to your complete satisfaction.

For the security of both parties and to avoid communications problems, please ask for written confirmation of pricing, delivery times, and technical guidelines, etc.

We offer datasheets in our catalogue which list further information for each product. Questions regarding these datasheets may also arise. Please contact us to receive more information. The datasheets have been created for each product and consist of a single, loose page. Please request the datasheet for the product you desire.

We wish you the best of success with your sweet advertising.

Our general terms and conditions of business apply to this information and are attached or can be requested.

Please consider the following points:

Template:

We will initially supply you with a data information sheet and a template (eps- or pdf-file) of the requested item. We ask you to prepare your motif according to this file.

Mandatory text:

Manufacturer/distributor, best before date and ingredients are mandatory texts, which are shown as a blue frame on the template. If you want to print this area as well, please make sure that this information still needs to be legible. Manufacturer/distributor and ingredients are printed in a logo or motif color. The list of ingredients according to the content is added by us to your motif with our font. For tins: The list of ingredients is indicated on the bottom of the tin. The best before date and the batch no. is generally printed on the back of the bag during production. The best before date, batch no. and manufacturer/distributor are generally printed on the side of the tin during production. We reserve the rights for product-specific adaptations.

Images:

Please send your images (color and grayscale) as original files with minimum 300 dpi (in CMYK). Bitmaps in 1200 dpi – a vectorised file is highly recommended for this. Embedded images can't be edited by us, so please send us the original file as well. The alteration of data, which does not correspond to the points mentioned above, causes additional costs.

Font:

The smallest yet legible font size for a positive print is 6 pt. and for a negative print 8 pt. All fonts must be converted to paths (vectorised). If this is not possible we will need your original fonts.

Positioning:

Please keep in mind, that you should not position relevant parts of your motif too close to the format edge. Otherwise we cannot guarantee an ideal positioning of your advertising.

Control mark:

The control mark is mandatory if it is shown on the template. It can be visible on the backside of the product.

Embossment:

Lines must be at least 0.55 mm thick. The distance between two lines must be at least 0.55 mm. The motif cannot contain small or fine fonts/text. The minimum line thickness is also valid for fonts/text. The motif cannot have a raster. Customised chocolate bars: The motif should not have small, fine fonts or filigree graphic elements and it should not be with a raster. The proportion between height and distance of the elevated area is 1:0,7. (Example: The distance between two elevated areas is 1,4 mm, then the height of the elevated areas is 2 mm)

Digital print files:

Please send us your digital data with color specifications according to Pantone or HKS, or for prints according Euroscala (CMYK) with a binding print/proof. We will check and prepare your data for the suitable print procedure.

Printing:

bags, blister pack, foil:	Flexo printing or digital printing
tins:	Pad printing or digital printing
outer package:	Offset printing

Program-versions:

Adobe Illustrator CC
 Adobe InDesign CC
 Adobe Photoshop CC

Glossary All symbols – briefly explained

Own IFS certified production: We offer you a wide range of certified products from own production.

Fruit gum: Produced with 10 % fruit content from fruit juice concentrate, natural aroma and colouring plant extracts.

Note: Sugar-free products.

Express production: Please watch out for our express symbol! It assures fastest production.

Veggie: Contains no ingredients derived from animals. Possible exceptions: milk, chicken egg, honey or beeswax.

Vegan: Contains no ingredients derived from animals and not produced by using any animal components.

Watch out our **Top-Seller, Novelty and Sweet Smarter recommendations!**

IFS certified: Certificate of the International Featured Standards for the casting of fruit gum and chocolate and packing of confectionery.

Fairtrade Cocoa Program: The Fairtrade Cocoa Program enables small-scale farmers to benefit by selling more of their cocoa as Fairtrade. Visit www.info.fairtrade.net/program.

FSC® (Forest Stewardship Council®): With our FSC® certified advertising cartons you can contribute the promotion of an environmentally friendly, socially beneficial and economically viable management of our forests.

UTZ certified: Seal of quality for sustainable cultivation of cocoa.

Organic certification: Seal for certified organic products of the European Union EU-/Non-EU Agriculture.

Compostable "seed" symbol
"♻️" is a registered trademark of European Bioplastics e.V. in the EU."

Sweet Promotion

Sweet promotional impact!

Quality + Impact

Made in Germany

Fairtrade® Cocoa Program

The Fairtrade Cocoa Program enables small-scale farmers to benefit by selling more of their cocoa as Fairtrade. Visit www.info.fairtrade.net/program

Please take notice of our Fairtrade Cocoa Program products on pages 8, 9, 11, 12, 13, 19, 20, 33, 34.

UTZ® Certified Cocoa

Controlled quality by independent researchers increase the standard of living of the farmers, their employees and their families. At the same time, it supports the sustainable cultivation of cocoa.

Please see our UTZ certified products on page 35.

Compostable Promotional Packaging

Make a contribution to environmental protection. Packaging material marked with the compostability logo "Seedling Logo" is tested according to the European standard EN13432 and confirms the compostability of the packaging incl. printing inks/colours under optimal composting conditions.

"Seedling Logo" is a registered trademark of European Bioplastics e.V. in the EU."

Please take note of our compostable promotional packaging on pages 41, 42, 43.

FSC® cardboard box

Sustainable and 100 % recyclable. FSC® stands for the promotion of an environmentally friendly, socially beneficial and economically viable management of our forests. Decide with FSC® cardboard for a gentle dealing with the forest resources.

Please take care on our FSC® certified advertising cartons on pages 8, 9, 11, 12, 13, 14, 15, 16, 19, 20.

100 % recyclable thermoformed parts

100 % recyclable mono films. Our R-PP foils have a regenerate share of 45 %, that means that 45 % of the resin, generated by recycling, gets back into the material loop as so-called secondary raw material and a new product is formed.

Please note our Advent Calendars with 100 % recyclable deep-drawn parts on pages 8, 9, 11, 12, 13, 16, 19, 20.

Own  certified production

High food safety

The IFS-Food Standard is used for the auditing of food producers concerning food safety, quality of processes as well as quality of products and has been developed in close cooperation with certification bodies, the trade, food and system catering industries.

IFS certified: Certificate of International featured standards for moulding fruit gum and chocolate, as well as the packing of sweets and sugar confectionery.

When it says ORGANIC – It is really ORGANIC inside!

Organic promotional products are booming and with the Eco seal they stand for quality and transparency – from production, over to processing, to sales. For many industries a decisive argument!

Please note our numerous organic certified products in the main catalog and here on page 42.

DE-ÖKO-007

MADE IN GERMANY – your competitive advantage

Our claim to produce sweet promotional products in the course of a sustainable production, with controlled quality and the highest food safety standards is your advantage.

Benefit from our many years of experience.

Did you know?

Our Tea-Bears® are the world first fruit gum with special characteristics to dissolve in hot water. After dropping the Tea-Bears® in a cup of hot water, they dissolve in just a few seconds and a sweet and aromatic hot drink results. Originality, taste and your promo message underline the quality of your product and your company.
