ACCESSORIES	167-172

General information

Standard availability of all the specified products is 2-5 weeks from the time an order is placed, depending on the type of product, quantity, and potential individual requirements.

Placing an order includes approval of the final design preview. We will always confirm the delivery deadline for specific products on the basis of your enquiry or order. Please give the quantity, colour, possibly the capacity, and the required printing in your enquiry. Products in stock are identified with the "24 h" icon and can usually be shipped within 24 hours. All catalogue numbers are unique and are used exclusively for the requirements of this catalogue. We cannot guarantee 100% availability of all products in all colours throughout 2021.

RETRACTABLE HIGH-SPEED PORTABLE SSD DRIVE

SSDD005  64 / 128 / 256 / 512 GB

Compatible with USB 2.0 and 3.0.

speed up to 300 MB/s

MOQ 50  Smaller quantities subject to request.

 pad printing, laser engraving

 65 × 22 × 12 mm

 metal

USB 3.1

capacity up to 512 GB

What are portable SSDs? They are the latest successor to USB drives and classic hard drives. They combine all their advantages and also have unbeatable data transfer speeds! **SSD drives are more reliable, faster and offer high capacities.** All in a small **compact case.**

RETRACTABLE HIGH-SPEED PORTABLE SSD DRIVE

SSDD003  64 / 128 / 256 / 512 GB

Compatible with USB 2.0 and 3.0.

MOQ 50  Smaller quantities subject to request.

 pad printing, laser engraving, CMYK

 63 × 23 × 12 mm

 metal

USB 3.1

capacity up to 512 GB

speed up to 300 MB/s

PORTABLE SSD DRIVE SECURED BY NUMERIC CODE

SSDD001 120 / 240 / 480 / 960 GB

Write: up to 400 MB/s, read: up to 500 MB/s. Compatible with USB 2.0, 3.0.

MOQ 50 Smaller quantities subject to request.

pad printing, laser engraving

79 × 50 × 8 mm

CUSTOM-SHAPED USB FLASH DRIVES

Do you long to go your own way? We will gladly help you create a USB flash drive of your own design, the only true limit being your imagination. Choose a 2D or 3D shape, the material, colour, interface, capacity and data transfer speed.

We manufacture custom-designed USB drives using the following materials:

PVC – starting from 50 pcs

Metal – starting from 500 pcs

Wood, bamboo – starting from 500 pcs

Acrylic – starting from 300 pcs

ABS plastic – starting from 1,000 pcs

 1-128 GB

MOQ 50 

 PVC, wood, bamboo, metal, plastic, acrylic

USB 2.0, 3.0

USB DRIVE PACKAGING

Beautiful packaging increases the perceived value of any gift. Whether your USB drives are a luxury gift or a medium for company data, we will always recommend the optimum packaging for the specific occasion. Naturally, your logo can be placed here too.

LCD VIDEO BROCHURES

LCD VIDEO BROCHURES are extremely effective presentation and promotional tools. This combination of high-quality video and a luxury, full-colour-printed paper brochure guarantees that your promotional message will impact everyone that receives it. An LCD display of the required size inserted in a presentation file printed with your design. Sound plays through an integrated speaker or, optionally, through earphones. We can add volume control or video and language version switching buttons.

Practically everything can be adapted to your requirements and wishes. Besides standard shapes and features, we also make many special versions, for example:

VIDEO BOX

This is a combination of a presentational video, manual, etc. with an offered product or gift. All this is packaged in a luxury box.

VIDEO BOOK

The video brochure with multiple pages, with an LCD display sized window, will automatically start playing another (designated) video when you turn the page. Each video can therefore be supplemented with corresponding graphics.

7" VIDEO BROCHURE

VID011  1,200 mAh, 128 MB - 4 GB

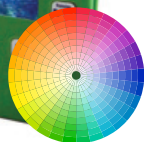

Resolution: 800 × 480, presentation size (closed): A5, video format: AVI, MP4, on/off switch: magnetic, battery life: up to 2 hours of playback, up to 3 months on standby.

HEALTH AND SAFETY

ALCOHOL TESTER WITH FUEL CELL ELECTROCHEMICAL SENSOR AND LED DISPLAY

ZOP044

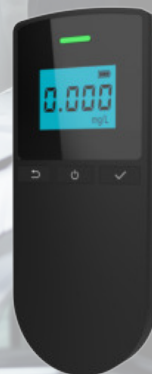

A high-accuracy electrochemical sensor based on the “fuel cell” principle; the result is not affected by other substances in the breath and does not depend on the volume of exhaled air. The same sensors are also used in professional testers, e.g. for the police. You can perform up to 2,000 measurements before recalibrating the sensor. The device issues an alert if the alcohol concentration in the breath exceeds a user-specified limit. Internal memory for up to 10 results. Package includes a set of replaceable washable mouthpieces. Power supply: AAA batteries.

MOQ 50  Smaller quantities subject to request.

 screen printing

 127 × 53 × 22 mm
